

JURI FEDJAEV

Professional Profile Report

Data Product Lead | Autonomous Mobility | BCI Researcher

j.fedjaev@gmail.com | linkedin.com/in/jfedjaev

Executive Summary

Juri Fedjaev is an experienced Technical Program Manager with a unique background in Brain-Computer Interfaces (BCI) and Autonomous Mobility. His career bridges academic research excellence (TUM, Ecole Centrale de Lille) with industrial scaling at Volkswagen Group (€1.9B programs).

Core Competency	Evidence
Autonomous Mobility - €1.9B Programs, 0→100 Deployment	VW Autonomous Mobility (2020-2024)
AI/ML Data Platforms - 200TB+, 15+ models	VW Production Systems
BCI/Neurotechnology - gumpy, IEEE Publications	Journal of Neural Engineering
Strategic Consulting - McKinsey, BCG, PwC	Multiple Alumni Programs

Academic Background (2010–2018)

TU München (TUM) - M.Sc. Computer Science/Engineering (2010-2016)

- Computer Vision, EEG signal processing
- Master's thesis: 'Decoding EEG Brain Signals using Recurrent Neural Networks'
- <https://mediatum.ub.tum.de/doc/1422453>

Ecole Centrale de Lille - Double Degree (2012-2014)

- French elite engineering school
- Winner #MOC2014 IoT Competition (INRIA)

Collège des Ingénieurs - MBA (2013-2015)

- Business-Engineering dual qualification

Professional Career

Volkswagen Group | Data Product Lead (2024-Present)

- Autonomous Mobility, AI/ML Product Leadership

VW Autonomous Mobility | Head of Program Management (2020-2024)

- €1.9B strategy programs
- 0→100 autonomous vehicle deployment (Level 4)
- Built 200TB+ data platform, 15+ ML models in production
- Certified SAFe 6 Agilist (ID: 25148732-7562)

Open Source & Research

gumpy - Brain-Computer Interface Toolbox

- Core Developer, 68+ Stars, 23+ Forks
- GitHub: github.com/gumpy-bci/gumpy
- Publication: Journal of Neural Engineering (2018), DOI: 10.1088/1741-2552/aae186

Additional Publications:

- Sensors (MDPI, 2019) - Deep neural networks for EEG decoding
- IEEE PEMC (2016) - Best Paper Award, Battery optimization

Awards & Recognitions

Year	Award	Organization
2014	Winner #MOC2014 IoT	INRIA
2016	Best Paper Award	IEEE PEMC
2017	Next Digital Leader	PwC
2018	Emeralds Program	BCG
2018	#Explore Program	McKinsey
2022	Leadership Development	McKinsey
2024	Certified SAFe 6 Agilist	Scaled Agile

Technical Expertise

Programming Languages:

Python | MATLAB | C++ | JavaScript/TypeScript | Swift | Java

Domain Expertise:

- Brain-Computer Interfaces (EEG, Motor Imagery, Hybrid BCIs)
- Autonomous Mobility (ADAS, Level 4, Fleet Management)
- AI/ML (Deep Learning, Computer Vision, MLOps)
- Data Platforms (Big Data Architecture, 200TB+ scaling)
